Subject: Authorization for Release of Cash Deposit Held by Utah State Treasurer, Sevier County, Bull claim Hill Rock Quarry, S/041/0037, Sevier County, Utah

Dear Ms. Hackwell,

The Utah State Treasurer is presently holding funds for the benefit of the State of Utah, Division of Oil, Gas and Mining as a form of reclamation surety for the following projects:

Permit ID	Mine Name	BOND AMOUNT			OPERATOR Check payable to	Account Number
		Total Amount Held	Release Amount Requested*	Amount to be Retained		
S/041/0037	Bull Claim Hill Rock Quarry	\$13,300	\$10,000	\$3,300	Sevier County	8912013

\*The amount requested does not include interest.

Please note that the total amount to be released does not include interest accrued in this account, and the total amount to be retained in the account is \$3,300.00.

Please make the check payable to the operator (Sevier County) and remit the funds to the Division, attention: Minerals Regulatory Program—Bond Coordinator.

If you have any questions or require further discussion regarding the content of this letter, please contact Penny Berry, bond coordinator, at 801-538-5291, or by e mail at [bondcoordinator@utah.gov](mailto:bondcoordinator@utah.gov).

Sincerely,

Dana Dean, P.E.  
Associate Director

6. Reclamation	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
7. Backfilling/Grading (trenches, pits, roads, highwalls,	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
8. Soils	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
9. Revegetation	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

#### Purpose of Inspection:

Operator requested inspection to assure regrading work had been completed to meet State standards.

#### Inspection Summary:

The access road going into the site has been partially reclaimed, to pre-mine conditions of a two track road. This was done by ripping the increased width of the road. The one drainage crossing along the road had also been graded to a reasonable swale and had been armored with rock. The quarry site has been completely regraded and the highwall has been eliminated. Most slopes were at a 3h:1v slope or flatter, there was one small area of the highwall that the slope was approximately 2.5h:1v. The surface had been left in a roughened condition with scattered boulders on the surface. Aside from the color difference, the regraded slopes blend in very well with surrounding topography. Seeding of the site has not been completed, and is scheduled for this fall.

Photos were taken to document site conditions.

#### Conclusions and Recommendations:

The regrading work completed meets or exceeds the requirements of the State and commitments made in the NOI. Should Sevier County desire to receive a partial bond release for the grading work, it should be approved.

This site should be considered for an Earth Day Award for the excellent reclamation work completed.
